TECHNICAL PROJECTS

SynergyConnect | <https://synergyconnect-front.onrender.com/login> | <https://github.com/team-fun/SynergyConnect> JULY - 2023

- Created Synergy Connect using Socet.io, React, and Express, delivering a user-friendly & collaborative experience.
- Implemented friend networking, enhancing user personalization and productivity within organizations or groups.
- Led creation of public/private chat rooms, driving engagement, collaboration, and innovative problem-solving discussions.

Game World | <https://game-world-qei9.onrender.com> | <https://github.com/The-Flexas-A-M/GraceShopperProject> JUNE - 2023

- Created an e-commerce website using React and Express, offering a diverse range of games.
- Crafted shopping experience with an intuitive shopping cart, enabling users to add games and complete purchases.
- Assigning tasks to team members and communicating deadlines and requirements.

EXPERIENCE

Geico Auto Insurance, Woodbury, NY
Underwriting Quality Control Analyst

OCTOBER 2012 – Present
JUNE 2021 – Present

- Engaged with 4-5 underwriting teams to execute high-impact profitability initiatives, by collaborating on the youthful operator, commercial use concerns, and personal injury protection projects.
- Overseen day-to-day operations of approximately 65 underwriters to ensure accurate documentation, effective implementation of third-party tools, and ensuring optimal underwriting endorsements.
- Earned recognition for exceptional leadership and quality assurance, governing quality across ~1.5K policies per month.
- Coached 3-5 newly hired underwriter staff, effectively enhancing performance metrics by implementing a comprehensive approach which facilitated professional growth to ensure consistent improvements across key performance indicators.

Senior Underwriter

OCTOBER 2014 – MAY 2021

- Assisted brokers with binding high risk new business policies and approved all bodily injury limits that exceeded 300,000 for seasoned policyholders.
- Achieved and maintained a perfect 5/5 quality rating each year, leveraging strong drive and dedication as well as industry knowledge, to ensure best-in-class operations.
- Consulted with new and existing policyholders to carefully evaluate prospective risks, providing key insights into policy determinations, including non-renewals for 30-45 policyholders per day.
- Captured millions of dollars in claims costs by detecting 10-20 fraudulent personal injury protection claims per month.

EDUCATION

Full Stack Academy Web Development Bootcamp

JANUARY 2023 - JULY 2023
